Tags: [clip](#) [strap](#) [backpack](#) [anchor](#) [webbing](#)

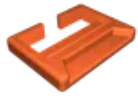

This clip attaches a fixed piece of webbing to an adjustable webbing. This is for my Osprey Parsec backpack with 20mm straps. You can adjust strap width in your slicer by scaling the model in the Y direction.

**Print settings:** it is already oriented correctly. I printed with PA-CF, . 16mm layer height, 100% infill. Any rigid filament including PLA or PETG should work fine.
