Summary

This is a round trash can lid that I made for decorative trash cans that are sold without a lid.

This is a round trash can lid that I made for decorative trash cans that are sold without a lid. It is great to cover foul smelling trash or keeping a lid on the trash. I found the best way to print this is at a 45 degree angle with tree supports unless you want to be in for a very long print time.

Boost me if you think this a clever design
