This is my mount for an Iphone 17 ProMax with silicon cover with the Creality Pika 3D scanner tripod. Printed with the Bambulab H2D, in pla matte black and matte green. Used the bambulab pla filament profile. Added tree supports. 0.2mm balanced strenth profile in Bambu Studio. I used 6x m3 brass inserts, 2x m3 x30 allen screws, 2x m3 x8 flat head allen screws and 2x m3 x15 allen screws.
