Summary

Adapter for 0,1-0,4mm² Insulated butt connector

[Hobby & Makers](#) > [Electronics](#)

Tags: [adapter](#) [knipex](#) [crimper](#)

More like a hack to save me (and hopefully others) from buying a even more expensive crimp tool for this small diameter 🐱

Simply put it into the red crimp selection for 0.5mm² and your are able to crimp 0,1-0,4mm² Insulated butt connector. When finished remove it with a flat head screwdriver.

Tested it with Klauke connectors (<https://www.klauke.com/de/en/insulated-butt-connectors>)

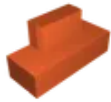

This is my first model, have to get your feedback
