Made this radiator jacket clip, so my kids could hang their jackets on the radiator.

I made this version pretty beefy, so it wouldnt bend so easily from weight.

Easy print.

22/11-25

Made an even beefier version, that can hold a kid backpack.

16/05-26 V2

Beefy version snapped on me. I made it stronger at the "hook". Also look if your infill looks strong in the slicer!

Printed in matte white PETG instead of PLA+, this time.
