## Summary

Genelec 8000-422W wall mount extender

[Gadgets](#) > [Audio](#)

Made this to improve the tilt range of my Genelec 4020C wall-mounted speakers.

This spacer extends the Genelec 8000-422W wall mount 20 mm from the wall, allowing the speaker to tilt correctly when installed close to a wall.

The extender keeps the original Genelec mounting hardware and provides extra clearance without modifying the speaker or mount.

Compatible with:

Genelec 4020C

Genelec 8000-422W wall mount

Other Genelec 8000 series mounts (untested)
