The quest marker from Skyrim, about 10.6 cm tall. Put it on your desk, next to your setup or on the fridge.

Versions

- Plain: one piece.
- Magnets: room for 8 x 2 mm disc magnets, so it sticks to metal. The Bambu file and the Prusa two-color file pause at the right height to drop them in.

- Two colors: black base and white top. The Prusa two-color file swaps filament at 5.3 mm, and the STL parts let you print the colors separately.

Files

- STL: full marker, plus the parts for two colors.
- Bambu Studio 3MF (A1): plain and magnets.
- PrusaSlicer 3MF (MK3S): magnets, and magnets with two colors.
- G-code for MK3S: two colors with magnets, PLA at 0.3 mm, about 1h15m.
