Summary

4 sided triangle used to mark order for 40k killteam

Tags: [token](#) [killteam](#) [engage](#)

design this order token myself for warhammer 40k killteam after getting tired of swapping the default tokens back and forth. I find it really satisfying to just tip over the token than flipping over the cardboard pieces.

I'd recommend printing at lowest layer line setting you can and sanding the prints afterwards for a nicer finish look.
