Summary

Keep your stuff organized and within reach

[Art & Design](#) > [Wall-mounted](#)

Tags: [shelf](#) [organizer](#) [ikea](#) [pegboard](#) [skadis](#)

A compact wall-mounted shelf system designed specifically for the IKEA SKÅDIS pegboard.

The printing orientation and design keeps shelves stable and solid in most materials. The frontal attachments make sure they align and connect securely with adjacent shelves.

Manually designed. No AI used :)

Features

- **Modular design** — multiple shelves can be mounted **side by side** to create a larger shelving system
- Designed specifically for **IKEA SKÅDIS**
- Designed for FDM 3D printing

Printing

- **Layer height:** Any

- **Perimeters:** At least 2-3
- **Infill:** 15-20%
- **No supports required**
- **Brim: Recommended**, especially for better bed adhesion
- **Material:** PLA or PETG recommended

Modular

Several units can be mounted next to each other, allowing you to create a continuous row as wide as your SKÅDIS pegboard allows.
