The Durbar Container

This container series was created for everyday use. The Durbar pattern provides a grip area on the container and a raised surface on the lid. One lid fits all containers.

The inner diameters of these containers are:

- 25x40mm
- 35x40mm
- 45x40mm

- **55x40mm**
- **65x40mm**
- **75x40mm**

3MF & STL files have been provided and the 3MF files have a PETG print profile for a more rugged and weatherproof structure. No supports or rafts are required.
