Tags: multicolor tabletop wargaming tokens miniatures cyberpunk skirmish markers minis forbiddenpsalm killsampleprocess

Printed with a 0.4mm nozzle and 0.2mm layer height. You don't need an AMS, just plan in a filament change in your slicer. All tokens apart from the Downed/killed token need a filament change after 0.6mm. The downed/killed token needs a change after 0.6 and 1.2mm.

The following tokens are included:

- Activated
- Fleeing
- Stunned
- Dazed
- Poisoned
- Diseased
- Bleeding

- Burning
- Restrained
- Downed/Killed - this one has two faces, flip it once the downed mini is killed
