Summary

Christmas bauble with ribbon, bow and hanging loop. AI-assisted; digitally checked, not physically printed.

Seasonal designs > Winter & Christmas & New Year's

Tags: decoration christmas ai ribbon ornament xmas bauble

A decorative Christmas bauble by Santurtzi3D with sculpted ribbon, bow, bell and a hanging loop. One-piece model.

AI-assisted creation, generated primarily from text according to the creator. The exact generation tool for this historical model is not documented. All images are digital renders of the supplied mesh, not photographs.

Digitally validated; not physically printed. Mesh checked as one closed component with consistent normals. Original preserved; no artistic redesign.

Dimensions: 81.90 x 112.37 x 100.00 mm (X/Y/Z). STL plus geometry-only 3MF in millimetres; no tested printer profile. The hanging loop is intended for decorative suspension, not load-bearing use. This ornament is not

freestanding. Verify the loop and hanging cord after printing before displaying it.

Reference slicing: OrcaSlicer 2.3.2, Bambu A1, 0.4 mm nozzle, PLA, 0.20 mm layers, 3 walls, 15% gyroid, automatic supports and 6 mm outer brim. Estimated total 7 h 18 min / 117.67 g including supports. Estimates depend on your settings.

Keep the supplied upright orientation and use supports for the sphere, ribbon and bell overhangs. Inspect your own slice preview and remove supports gently around the loop and thin details. No physical print or suspension-strength test has been performed. Decoration, not a tested toy.

Free personal-use download under the selected Standard Digital File License. The original Cults listing remains open price.
