SNES/Super Famicom Cartridge Storage Box with Hinged Lid

Space for 5 cartridges. I've tested with European (PAL) cartridges but should also be fine for Japanese ones. US ones are a bit larger so won't fit.

To connect the lid just feed in 1.5mm filament through the hole and cut at each end.

Lots of room on the top for logos. Photo shows the 4 colour SNES logo on top.

Print with the Seam at the back.
