Carson Hocevar American Flag Wall Art. Fills the bed on a 256mm x 256mm build plate (printed on my CC1 wCANVAS). 8mm total thickness. Can use double side tape or Command strip to display. No 3MF so use your sliver to color accordingly.

Printed in Elegoo Matte PLA with a .4 nozzle and a .2 layer height. I'd suggest 15% gyroid infill.

Check out my other models! Thanks for looking!
