updated 27. 10. 2026 | published 27. 10. 2026

Summary

holds a DB9 and a DB25 connector on each end. Self latching, no hardware needed.

I did start with another model from Thingiverse but I cannot find the original anymore! I used AI to remix it from DB9-DB9 to DB9-DB25, removed the separate clamp clip, and made it self-latching. I've printed in ABS but PETG is better. Prints without supports
