Summary

Frame corners for easy printing on smaller printers for Labrax

[Gadgets](#) > [Computers](#)

Tags: [homelab](#) [minilab](#) [10inchrack](#)

This model allows you to use any 1u 10 inch mounting plate as the cross member in the Labrax 10inch rack.

This means a smaller printer can be used and also allows for new mounting options at both the top and bottom angled areas.

Total printed parts per corner would be 2 x labrax frame corners w/ Brass Inserts and 1x 10 inch mounting plate (any model)

This is based on <https://www.printables.com/model/1489100-labrax-frame-corners-w-nutholes>

So special thanks to @Ethan_2654100
