Baby Pangolin Desk Buddy

Meet your new tiny desk companion! This baby pangolin is inspired by one of nature's most unusual animals, known for its distinctive protective scales.

Designed as a compact decorative print, it can sit on your desk, shelf, or beside your other favorite 3D-printed animals.

Features

- Small, compact design
- Inspired by the pangolin's distinctive appearance
- No moving parts or assembly required
- Suitable for single-color printing
- Can be customized with filament colors or paint

Printing

- Printer: Bambu Lab A1 or another compatible FDM printer
- Material: PLA recommended
- Supports: Check the slicer preview before printing
- Multicolor: Optional, with additional color setup

Print your own tiny pangolin and give this unusual animal a place on your desk!

You can also paint the single-color version.
