Tags: psu powersupply taramps

A 3D-printed protective cover for the output terminals of the Taramps BOB 60A power supply.

Designed to cover the exposed electrical terminals, helping prevent accidental contact and reducing the risk of short circuits caused by loose metal objects.

A simple, practical accessory for a cleaner and safer installation.

**Note:** This cover is intended as an additional protective accessory and does not replace proper electrical safety precautions. Make sure the power supply is disconnected from the mains before installing or removing the cover.
