This an update to my version 1 <https://www.printables.com/model/1419076-creality-falcon-a1-laser-chuck>

This version needs 4 x M3x35mm bolts and 188mm GT2 belt

This model uses a 1:2 ratio instead of 1:5 ...make sure you update your settings.

For the full project you will need the 3mf or some stl's from the first version.
