Unicorn TP holder (2 versions)

V1 I will be printing soon (my kid asked for it), It uses a spring loaded guide to hold the TP role in place and has a knob to pull on to replace the TP role easy. Hardware needed -one- 3mm square nut and 3mm by 10mm long allen head bolt.

V2 was a idea I had and won't print, It is the same as version 1, but it is made for a normal tp spring tube (but it will be tight to remove the spring tube)

I did add my spring bending jig to make the spring if you don't find a 15-35mm wide15-30mm long 0.20 spring.

I will update after printing.

This remix is based on
