[jewelrybox](#) [boxesmodel](#)

A tapered coffin-shaped jewelry box with raised spiderweb, bat and border details on an arched lift-off lid. Five compartments separate rings, earrings or small clips.

Dimensions and storage layout can also be adjusted on the model page:

<https://boxesmodel.com/models/halloween-web-coffin-box>

Overall width with preserved proportions, compartment count, divider height, wall/base thickness and lid clearance can be adjusted.

The files here are the complete fixed default-size version. Custom exports follow the pricing shown on the model page.

DEFAULT SIZE AND ASSEMBLY

125.2 x 210 x 45.46 mm overall. Divider height: 32.4 mm; base: 3.4 mm; nominal lid clearance: 0.30 mm per side. Tapered compartments have less space at their narrow ends.

Print one body and one lid. Clear supports from the locating rim and lower the lid vertically. No hinges, screws or magnets are needed. Check support access around the arched lid and relief.

Dimensions are in millimetres. Each STEP is an alternative CAD format for the matching STL, not an extra piece to print.

PRINT STATUS AND COLORS

Geometry, dimensions and part completeness were checked in CAD. This model has not been sliced or physically test-printed. Review orientation, supports and tolerances in your slicer. No tested print profile, print time or G-code is supplied.

The cover is a render of the actual model, not a photograph. STL and STEP contain uncolored geometry; illustrated colors require painting or slicer coloring. No AMS/MMU-ready multicolor 3MF is included. Food-contact performance has not been validated; use wrapped sweets if storing treats.
