Summary

A twelve-lobed jewelry tray with a raised spiderweb, sculpted eight-legged spider and central ring post. STL + STEP.

Seasonal designs > Autumn & Halloween

Tags: halloween spider tray ringholder spiderweb jewelrytray boxesmodel

A twelve-lobed jewelry tray with a raised spiderweb, sculpted eight-legged spider and central ring post. The web sits on a continuous floor so small items cannot fall through.

Dimensions and storage layout can also be adjusted on the model page:

https://boxesmodel.com/models/halloween-spiderweb-ring-tray

Tray diameter, rim height, ring-post height or removal, web relief height and wall thickness can be adjusted.

The files here are the complete fixed default-size version. Custom exports follow the pricing shown on the model page.

DEFAULT SIZE AND ASSEMBLY

180 x 180 x 40.57 mm overall. Conservative floor clear diameter: 148.8 mm; rim above web: 15.8 mm; ring-post height: 30 mm. The overall bounds include the spider.

One tray, including the spider and post; no separate inserts or hardware. Place the base toward the plate and inspect the legs and raised details for supports.

Dimensions are in millimetres. Each STEP is an alternative CAD format for the matching STL, not an extra piece to print.

PRINT STATUS AND COLORS

Geometry, dimensions and part completeness were checked in CAD. This model has not been sliced or physically test-printed. Review orientation, supports and tolerances in your slicer. No tested print profile, print time or G-code is supplied.

The cover is a render of the actual model, not a photograph. STL and STEP contain uncolored geometry; illustrated colors require painting or slicer coloring. No AMS/MMU-ready multicolor 3MF is included. Food-contact performance has not been validated; use wrapped sweets if storing treats.
