Summary

Wax-Drip Potion Jar with Wide Mouth and Stopper Lid. Complete default-size STL + STEP files.

[Seasonal designs](#) > [Autumn & Halloween](#)

Tags: [halloween](#) [lid](#) [storagebox](#) [moon](#) [jar](#) [witch](#)
[potion](#) [boxesmodel](#)

A sculpted potion jar with raised wax drips, scrolls and moon details, plus a petal-shaped lid with an octagonal knob. A wide mouth makes it useful for coins, hair ties and other small dry items.

Dimensions and storage layout can also be adjusted on the model page:

<https://boxesmodel.com/models/halloween-wax-neck-potion-jar>

Diameter, height, compartment layout, stopper clearance and wall thickness can be adjusted, with the lid regenerated to match.

The files here are the complete fixed default-size version. Custom exports follow the pricing shown on the model page.

DEFAULT SIZE AND ASSEMBLY

147.51 x 150 x 180 mm overall. Centre mouth diameter: 80 mm; centre usable height: 132.7 mm. The stopper inserts 6 mm with nominal 0.45 mm clearance per side. An optional divider ends 12 mm below the mouth.

Two printed parts: body and lid; the stopper is part of the lid. Clean mating surfaces and fit vertically without forcing. No hardware is needed. Review the wax drips and stopper for supports. This is not a sealed vessel or a container for liquids.

Dimensions are in millimetres. Each STEP is an alternative CAD format for the matching STL, not an extra piece to print.

PRINT STATUS AND COLORS

Geometry, dimensions and part completeness were checked in CAD. This model has not been sliced or physically test-printed. Review orientation, supports and tolerances in your slicer. No tested print profile, print time or G-code is supplied.

The cover is a render of the actual model, not a photograph. STL and STEP contain uncolored geometry; illustrated colors require painting or slicer coloring. No AMS/MMU-ready multicolor 3MF is included. Food-contact performance has not been validated; use wrapped sweets if storing treats.
