## Fully Articulated Snake

Meet the **Fully Articulated Snake** – a flexible and detailed 3D printable model designed to bring movement and personality to your collection!

Featuring a fully articulated body, this snake can bend, twist, curl, and be posed in countless ways. Whether you're looking for a fun fidget toy, a unique desk companion, or an eye-catching display piece, this snake is a great addition to any 3D printing collection.

Designed specifically for FDM 3D printing, the model combines detailed aesthetics with practical printability, providing an enjoyable printing experience and smooth articulation.

### Features

- **Snake-inspired design** with detailed features
- **Fully articulated flexible body** for natural movement
- **Optimized for FDM 3D printing**
- **Great as a fidget toy, collectible, desk decoration, or gift**
- **STL files included**

### Recommended Print Settings

- **Printer:** FDM
- **Layer Height:** 0.2 mm
- **Infill:** 10–15%
- **Walls/Perimeters:** 2
- **Material:** PLA recommended
- **Nozzle Temperature:** 210–220°C
- **Bed Temperature:** 55–60°C

### ⚠ Important Scaling Notice

This model has been carefully designed and tested at its original size to ensure smooth articulation and proper joint tolerances.

**Scaling the model up or down may affect the joints**, potentially making them too tight or too loose.

For the best results, I recommend printing at **100% scale with a 0.15 mm layer height**.
