Give your Christmas tree an elegant modern look with six ornaments combining geometric shapes, flowing curves and floral patterns. The openwork designs form a coordinated collection that looks beautiful in a single colour.

**Included designs:**

- Art Deco-inspired drop
- Round bauble with flowing waves
- Floral heart
- Geometric diamond
- Six-petal flower
- Circular mandala

A lovely choice for a minimalist Christmas tree, decorative branches or a handmade gift set.

Each ornament is approximately 80 mm tall, including the hanging loop, and 3 mm thick. Six separate STL files let you choose individual designs or print the whole collection.

**Suggested print settings:**

- Material: PLA
- Nozzle: 0.4 mm
- Layer height: 0.2 mm
- Walls: 3
- Print flat on the build plate
- No supports required
- Single-colour printing — no AMS needed

Finish with a thin ribbon or string through the integrated hanging loop. Keep the original scale to preserve the finer details.
