Bring a little woodland charm to your Christmas tree with six nature-inspired ornaments. Forest animals, leafy details and winter trees create a coordinated collection with a cosy, rustic feel.

Included designs:

- Deer in a forest frame
- Owl
- Geometric fox
- Pine cone
- Bird on a leafy branch
- Winter forest with a star

The openwork patterns let the green branches show through, making the designs stand out beautifully in white or ivory filament.

Each ornament is approximately 80 mm tall, including the hanging loop, and 3 mm thick. The set contains six separate STL files.

Suggested print settings:

- Material: PLA
- Nozzle: 0.4 mm
- Layer height: 0.2 mm
- Walls: 3
- Print flat on the build plate
- No supports required
- Single-colour printing — no AMS needed

Add a thin string or ribbon through each hanging loop. Keep the original scale to preserve the finer details.
