Soft corners and fine vertical ribs give this rounded-square LED tealight holder a clean, modern look. The circular candle opening contrasts with the gently squared body, creating a subtle decorative piece for a coffee table, shelf or bedside table.

Neutral matte filament highlights the texture beautifully.

• Dimensions: approximately 84 × 84 × 28 mm
• Candle opening: Ø 42 mm, 25 mm deep
• Flat base and single-piece design
• Designed for LED tealights only — do not use real candles or open flames

Suggested starting settings: PLA, 0.16–0.20 mm layer height, 3 walls and 12–15% infill. Print flat-side down and check overhangs in your slicer.

Measure your LED tealight before printing. Product images are illustrative renders; candle fit depends on its dimensions.
