Are you always forgotting something in Hoplomachus Victorum?
Oh no this guy has Hamstring and I let it attack me...
Oops, i was Stunned...and i killed the Primus...
Please find a set of markers for All status and tactics from Base Game and Pandora's Ruin.
You will find some Status rings to clip on unit chip, like Stun.
Also some Status ring to put under the Tactics chip for the permanent Status, like Hamstring.
For the Tribun and the Dazed State, I deciced to use simple tokens with a D or a T on it.
And the bonus is the Act counter marker. You can put it front of you in the camp, to keep an eye on the current act and think about the malus added from act II to IV.
May need to imporve this to add clearly the malus.
I'm using these during my game and I can improve things if something isn't working good enough.

Especially when you have several status, it can be unconfortable to take your Chip pile.
Have a good game and happy printing ;)

PRINT ADVICES:

General: use a multicolor printer.
Rings for temporary Status (Stun...):
0,2mm leyer height nothing special
Red color for negative Status and Yellow for improved Tactics.
Rings for Permanent Status (Hamstring...):
0,1mm layer height to have the better text definition
I used color of Tactics tokens white and Yellow.
Tribun and Dazed tokens:
0,2mm layer height.
I provided 2 versions.
The Dazed and Tribun version are flat and better on a textured sheet.
The Dazed-up and Tribun_up versions are to be printed Status Letter above with ironing.
Acts counter marker:
0,15mm layer height with supports.
I printed it angled at 45° , see screenshot in pictures. It helps to have all faces quite similar in quality.
Maybe add a brim. My print worked nice until the end.
