Summary

This custom phone mount fits the Jeep Cherokee KL dashboard cubby.

Hobby & Makers > Automotive

Tags: phonemount kl tripodx4

Built specifically for the Jeep Cherokee KL, this custom dashboard phone mount combines a clean, integrated appearance with a secure, easily removable design. Its wedge-shaped base fits snugly around the cubby release lever, creating a sturdy mounting point for an adjustable phone cradle.

No tape. No adhesive. No suction cups. No permanent modifications. Install it when you need it and remove it easily when you don’t.

The elevated center-dash position keeps your phone visible and within easy reach without sacrificing an air vent or attaching anything to the windshield. With the option to customize your print colors and a vehicle-specific design, it looks built for the Cherokee, not adapted to it

Features:

- Designed for the Jeep Cherokee KL dashboard upper cubby location.

- Compact, low-profile wedge design.
- Integrated mounting point for an adjustable phone-holder assembly.
- Allows the phone cradle to be positioned and adjusted independently.
- Keeps the phone elevated above the dashboard and screen.
- Clean, purpose-built appearance.
- Universal compatibility with hundreds of cradles and hardware.
- Available in whichever color you decide to print it in.
