Spin the reels and test your Halloween luck!

Jackpot-O'-Lantern is a fully 3D-printable, pumpkin-shaped slot machine that brings a little spooky fun to your Halloween celebrations!

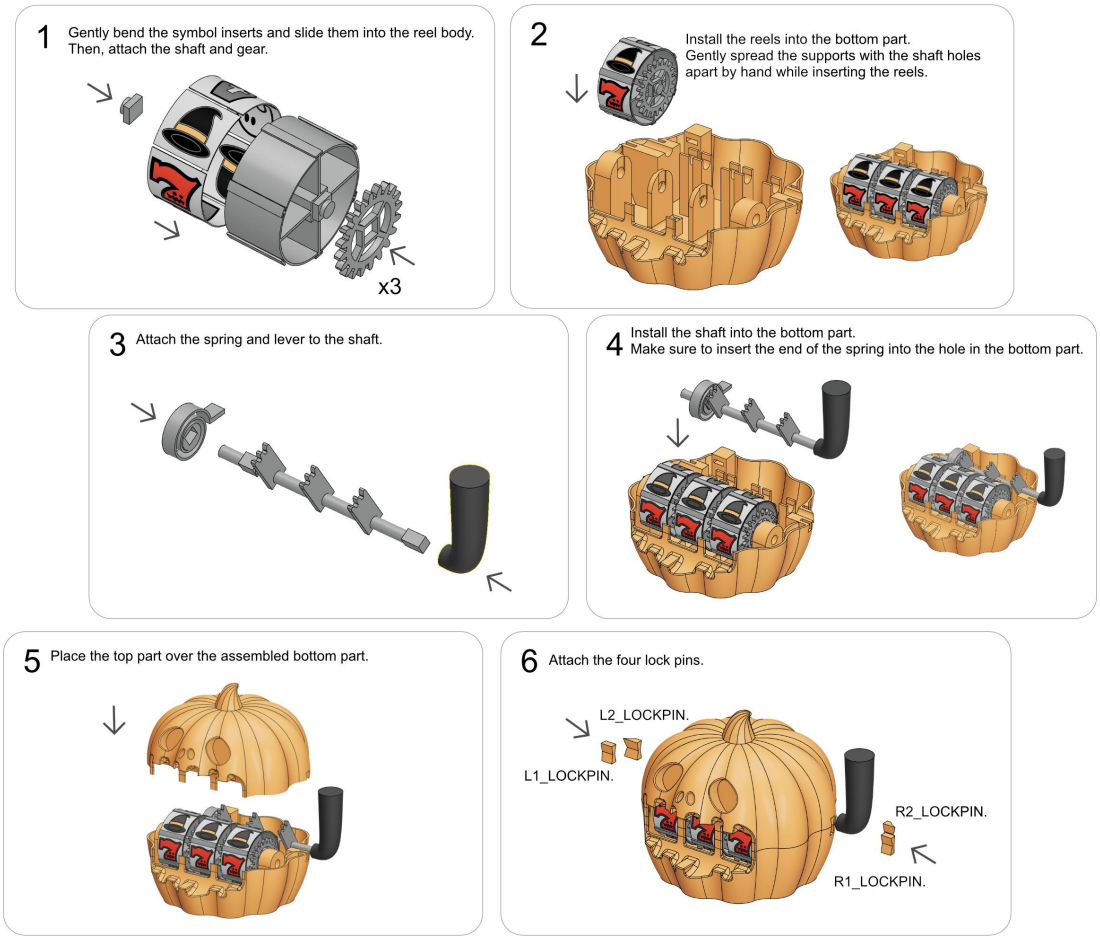

The entire mechanism works using 100% 3D-printed parts — no additional springs, screws, or hardware required!

Features

- 100% 3D Printable: Everything you need can be printed, including the spring mechanism. No extra hardware required!
- 4 Reel Symbol Designs: Choose from four different symbol designs and print your favorites to customize your slot machine.
- Adjustable Fit: STEP files (.stp) are included for all parts, allowing you to adjust dimensions if any parts fit too loosely or too tightly.
