Summary

Tabouret en bois et impression 3D. Démontable pour le rangement et le transport.

Household > Other House Equipment

Tags: kitchen woodworking chair wood camping stool chaise cuisine bois tabouret

Make your own stool, using wood and 3D printing!

Disclamer: This a DIY project, you can reproduce for fun and educationnal purpose. But improper use of the process (woodworking especially) and improper use of the chair could lead to injuries. You are doing it at your own risk.

You will need 8 small wood screws.
