Cordless tool battery adapter.

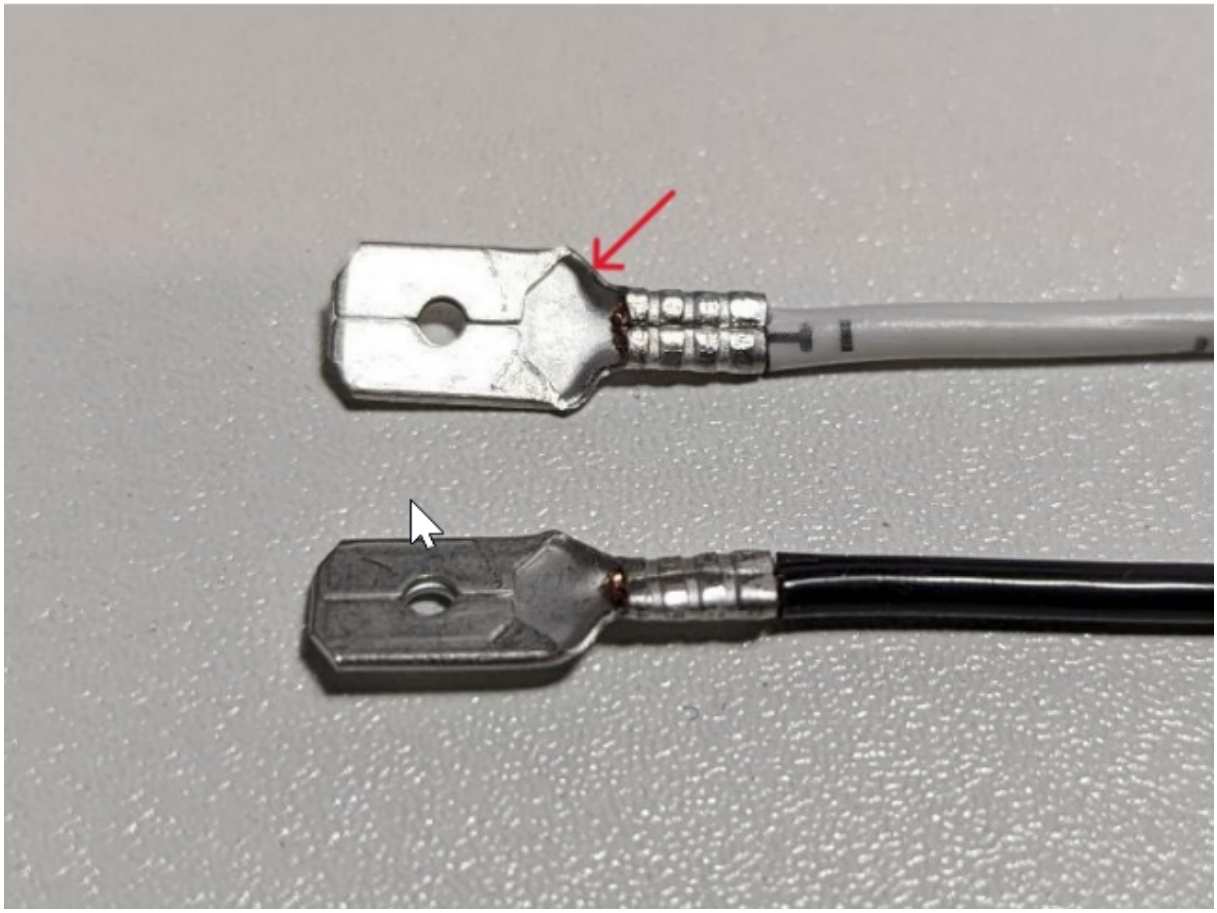

Dewalt Battery to Black and Decker tools

Extra hardware

- spade connectors
- wire
- fuse terminal
- M3 x10mm bolt & Hex nut
- 10k ohm resistor
- spring, 25mm, 0.5mm, 6mm, a pen spring will probably work

Prep spade connectors like this, flatten out the shoulders if you can

Assembly should be self explanatory, reach out if you need clarification. Connect the resistor between the negative terminal and the adjacent one.

If you like this model, please throw me a like. Designing the models is time, filament and coffee consuming. If you want to support my work buy me a coffee (PayPal). Thanks!
