The Scraper That Actually Works!

Dired of struggling with stuck prints? This 3D-printed plate scraper is a must-have tool for any 3D printer owner, especially for Bambu Lab users! Its specific blade angle is designed to get under even the most stubborn prints, like large PLA/PETG surfaces, or thin brims, **without damaging your build plate**.

- **Precision Edge:** Gets under prints effortlessly.
- **Plate Safe:** Designed not to scratch PEI or other surfaces.
- **Ergonomic:** Comfortable to hold and use.
- **Essential for PETG/PLA:** Ideal for materials that stick too well.

Print Settings & Advice

- **Layer Height:** 0.16 mm
- **Infill:** 15-20% (Gyroid)
- **Walls:** 3 walls for durability

- **Supports:** No supports needed
- **Build Plate:** Textured PEI (or your preference)

Happy printing! Don't forget to share your makes and leave a star!
