Christmas Tree Gift Card Holder – Merry Christmas

A special and original way to give gifts at Christmas!

This festive Christmas tree features a clever sliding mechanism that allows you to present gift cards, money or little letters in a fun and unique way.

The model consists of three parts:

- **Christmas Tree:** The main body of the gift holder.
- **Sleeve:** Slides into the Christmas tree and holds your gift.
- **Reindeer:** Acts as the handle for the sliding mechanism.

Assembly & Instructions

1. Before assembly, move the sleeve fully open and closed approximately 10 times. This helps loosen the mechanism and ensures smooth movement.
2. Slide the sleeve into the designated opening in the Christmas tree.
3. Attach the reindeer to the sliding mechanism using a tiny drop of glue.
4. **Important:** Make sure the glue goes ONLY into the designated recessed area. Do not get any glue on the sliding surfaces or the Christmas tree itself, as this may block the mechanism.
5. Once the glue has dried, you can move the reindeer back and forth to operate the sliding mechanism.

What Can You Put Inside?

- Standard-sized gift cards
- Folded banknotes
- Small letters or personal messages
- Gift vouchers

Simply slide the little reindeer back and forth to reveal or hide your surprise!

A creative, interactive and unique way to wrap your Christmas gifts. ❤

Happy printing and gifting!
