Tags: wall mount wallmount magnets raspberry pi raspberrypi tablet raspberrypi5 touch2 aihat aihat2

Wall mount for Raspberry Pi 5 with AI Hat+ 2 module and Touch 2 Portrait. Would not be useful for landscape due to the way the hooks are designed.

PETG 15% infill.

Hooks screw into the plate. Diameter of the screw hole is 2.5mm so an M3 screw or similar size should work fine. Holes are self tapping. Designed for 8mm magnets to help the mount snap into place. I designed it so you can pull the thing off the wall and use as a tablet if you want.
