Introducing Vase 007!

Print it to flex your filament colors! You can easily print the two-tone color by splitting into parts. paint one part one color and the second part another color.

DO IT!

I DARE YOU!!

Also available are two versions. One is for vase mode.

Printing Instructions:

- Layer height: 0.2mm
- Supports: Nope

Thank you for your time and consideration on this matter.

For those who have joined my club at the “Obsessor” tier or have subscribed to my commercial membership on Patreon, prints of this model can be used for commercial purposes.

Feel free to join my discord for additional support, questions, or suggestions!

Filaments used:

- Polymaker Gradient Celestial Blue-Purple PLA
- Polymaker Silk Gold PLA
- Polymaker Starlight Neptune PLA
- Polymaker Matte Charcoal Black PLA
- Polymaker Translucent Jade PLA
