Summary

Created the model to be used

3D Printers > Accessories

I needed a modern window exhaust vent compatible with my vinyl windows. Designed this model in LayerLing for my 33" window next to our Xtool and SnapMaker. I set the walls to 4 thick and printed in PETG as we get heavy rains and humidity. The object is fully assembled and ready to be resized / sliced to your liking. Hope you enjoy!! Included is an exhaust tube adapter for the Xtool factory hose.
