Needed a storage solution that meets a few requirements:
1) Cheap
2) Wall mount
3) Each drawer/tray needed to be at least ~4/5/5in (~100/125/125mm)

I found a solution at Harbor Freight that met 2 of 3.

Less than an hour later creating this model and we have the 3rd.

I also added a basic spacer for moving the rack ~.4in (10mm) off of the wall.
Bolt holes are sized for M4 nut/bolt (25-30mm long)
