Summary

Paint mask pieces for some duramax engines, LML, LBZ, and LB7. I dont really know tbh.

Tags: mask paint intake duramax lml lb7 lbz

These are some paint mask pieces I made for someone a while ago (files are dated) for different duramax aftermarket intakes/pieces. (lol someone just handed me the parts and I did my best to understand which engine each was for, but ultimately i didnt care)

Cleaning out some files and remembered I never got paid for these, so if someone else can make good use of them, go for it! :)

I think I designed them to be printed from ABS (the thick ones), but also I do remember printing some from TPU (but may have just been demo/test pieces). Dont ask, idk, it was 3.5 years ago as of posting this.
