Whether you're reading novels, fantasy adventures, manga, or your favorite book, this unique 3D-printed bookmark adds personality to every reading session. - **Slim & Lightweight:** Designed to fit between book pages without adding unnecessary bulk.
- **Intricate Artwork:** The contrasting details help bring the dragon design to life.
- **Customizable Colors:** Try black and white, silver and black, or your favorite filament combinations.

- **DIY Friendly:** A fun and creative project for your 3D printer.

Model Dimensions

Based on the Bambu Studio screenshot:

- **Width (X):** 39.85 mm
- **Length (Y):** 167.87 mm
- **Thickness (Z):** 1.5 mm
- **Overall Size:** Approximately 3.99 × 16.79 × 0.15 cm

The long, slim shape is designed to extend along the page while keeping the bookmark lightweight.

You can adjust the model's scale in your slicer to suit different books, notebooks, or journals. Keep in mind that increasing or decreasing the scale will also change the thickness if uniform scaling is enabled.

Recommended 3D Printing Settings

- **Printer:** Bambu Lab A1 / A1 mini or another compatible FDM printer
- **Filament:** PLA recommended
- **Nozzle:** 0.4 mm
- **Layer Height:** 0.20 mm
- **Orientation:** Print flat on the build plate

- **Supports:** Not expected to be necessary when printed flat
- **Color:** Single-color or multicolor, depending on your model and slicer setup

For the fine dragon details, use a clean build plate and check the sliced preview before printing. A smaller layer height may help improve fine-detail definition.

Actual print results may vary depending on your printer, filament, and slicer settings.
