This is a Sherman M4 tank scale model STL for 3D printing, made for tank model fans searching for an M4 Sherman, military armored vehicle, or WW2 tank replica for display and diorama. Print it as a detailed 3D tank model for war themed collections, tabletop scenery, model building, and historical vehicle displays. The file is a print-ready 3D model prepared in a slicer before publishing, so there is no guesswork before the first layer. Sliced with 0.20 mm layer height, a 0.4 mm nozzle, 15% grid infill, 2 wall loops and PLA (supports: tree(auto)). Profile prepared on a Bambu Lab A1. Scale - 1:10. You also get the 3MF project file, not just the raw mesh.
