Add a touch of tactile satisfaction to your day with this Fidget Spider Web. Designed as a print-in-place model, it combines a unique web-inspired

geometric structure, smooth movement and reliable printability in four different sizes.

Whether you're at your desk, studying or simply looking for a relaxing sensory toy, the repetitive movement provides a satisfying tactile experience that helps keep your hands busy and your mind focused.

Why makers will love it:

4 different sizes included

Print-in-place design – no assembly required

No supports needed

Smooth and satisfying movement

Fast and reliable print

Great for gifts, desk setups or everyday fidgeting

Looks great in silk, gradient and multicolor filaments

Optimized for PLA

I wanted to create my own interpretation of a spider web-inspired fidget design. The result is a unique, geometric and enjoyable design that is easy to print and fun to use.

Happy printing! ❤
