🐱 Cat Lazy Pose Light Switch – Cute Cat 3D Printable Decoration

Add a charming and functional touch of cuteness to your home with this adorable **Cat Lazy Pose Light Switch** 3D-printable design!

Specially designed with a 90-degree inner corner to rest perfectly on top of standard light switch plates, door frames, or picture frames, this design features a long, lazy kitty lounging comfortably with its cute tail dangling down the side. Its wide, curious eyes peeking over the top make turning on the lights a delightful little moment every time.

The clever combination of a flat-resting body, hanging tail, and adorable peeking face makes this model an effortless upgrade to any plain wall plate.

Whether you mount it on your bedroom switch, hallway plate, computer monitor, or give it as a gift to a pet lover, this lazy cat switch topper is sure to bring a smile to your face! ❤

Model Details & Size

- **Model Name:** Cat Lazy Pose Light Switch
- **X Dimension:** 103.13 mm
- **Y Dimension:** 89.95 mm
- **Z Dimension:** 5.00 mm
- **Material:** PLA Basic / PLA Matte recommended
- **Nozzle Size:** 0.4 mm
- **Recommended Layer Height:** 0.20 mm
- **Print Type:** Functional Decor / Light Switch Topper / Wall Accent
- **Customization:** Can be resized to fit custom switch plate sizes or mirrored in your slicer for left-side placement.

Easily attaches to the top edge of your light switch plate using a small piece of double-sided tape, mounting putty, or Blu-Tack.

Printing Recommendations

- Recommended material: PLA, PLA+, or PLA Matte.
- Recommended layer height: 0.20 mm (Initial layer: 0.20 mm).
- Use a clean and well-leveled build plate (Textured PEI Plate recommended) for a clean bottom finish.
- The model is 5.00 mm thick, giving it great rigidity and durability when mounted.
- Check the sliced preview to ensure crisp definition on the thin tail, paws, and eye details.
- Experiment with multi-color printing (AMS or a simple manual filament swap at layer height) to make the white outline and eyes pop against the dark body.
- **No supports are necessary** as it prints completely flat on the build plate.

Actual print results may vary depending on your printer, filament, and slicer settings.

Color Ideas

- **Glow-in-the-Dark & Black:** Print the eyes and outline with glow-in-the-dark filament so you can easily spot your light switch in the dark!
- **Black & White:** Classic tuxedo cat aesthetic that blends nicely with standard white switch plates.
- **Orange & White:** For a fun and cozy ginger tabby look.
- **Gray & White:** Subtle, modern, and minimalist room accent.
- **Pastel Colors:** Great for children’s bedrooms, playrooms, or cute kawaii desk areas.

Perfect For

- Light switch covers and electrical outlet accents
- Computer monitor and laptop corner decor
- Picture frame and door frame toppers
- Cat lovers and pet enthusiasts
- Kids' rooms, nurseries, and playrooms
- Quick housewarming gifts for friends and family
- Cute and practical DIY home improvement prints
- Apartment-friendly, non-permanent wall decor

❤ Enjoy This Design

If you enjoy this **Cat Lazy Pose Light Switch** design

Your support through a Boost means a lot to me and helps motivate me to create and share more new designs. Thank you so much for your support! ❤
