A DIY clamp trigger system , designed to accept a standard AR-15 grip Im sure im not the first to upload something like this but I would really like to see someone use it all the hardware can be sourced at a local hardware store feel free to go crazy with the builds and give this a like to help me out

BOM

1x 1/4 in. x 1 in spring

M4x25 bolt/nut As many as needed (only 2 needed will be the sheer and trigger all extra holes made in order to be easier to design around)

1xM6 bolt
