I recently received my copy of 1833NE: Railroading in New England, so of course I designed storage trays for it. The trays fit in the game box without removing the insert (though I tuck the money under the insert since I use poker chips instead) and without lid lift.

There are two sizes of tile trays; the small tray holds 13 tiles, while the large tray holds 18 tiles. One set (small + large) will nest together in the box. The tile trays and the shares box have holes in the bottom to make it easier to remove the contents.

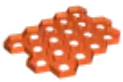

Notes

The trays are intended to be printed on a larger printer (10" x 8" printbed) such as the Prusa MK4 or similar.
