Celebrate eternal love with this charming 3D printable Skeleton Lovers on the Moon figurine! Featuring two adorable skeletons sitting together on a crescent moon decorated with bright flowers, this unique sculpture combines romance, mystery, and playful gothic style. Perfect for Halloween decorations, Day of the Dead celebrations, romantic gifts, or adding a magical touch to your home. A wonderful gift for couples, gothic decor lovers, and anyone who believes that true love lasts forever! --- I test all my models with default Bambu Lab slicer settings: 0.2mm layer height, 10% infill, tree supports. No complex tweaks needed. If a model requires special settings, I include a prepared 3MF file (rare).
