Cash register sized for Sylvanian Families or Playmobil. The cash drawer is a separate part and it's possible to place at least 4 coins in the drawer. The coins are a bit oversized compared to the cash register but otherwise they would be impossible for kids to play with.

The receipt in the picture was printed with word size 3 (which is readable!) to fit in the receipt holder. Also printed a small "display" (3x12mm) on glossy paper.

There is also a small basket included and a cash register stand which are sized to fit with the market stand in the pictures. The market stand is currently only available at Thingiverse (user Enely) but will hopefully soon be uploaded to Prusa Prints too.
