Summary

A thin bookmark with a dog paw design.

I liked zarehz's design for a dog paw bookmark but prefer my bookmarks as thin as possible. I used zarehz's paw design as the basis for this bookmark and then changed the aspect ratio and made it thinner.

I've included a long and short design so you can choose the one you prefer.

Printed at 0.1mm layer height and the color was changed at 0.5mm.
