This is a remix of neyth_makes PS5 Controller Clip.

I trimmed it down and made a few modifications to hold the controller more securely. I also added a little cut out at the top to hold the USB charging cable.

This is my first time designing something like this so any feedback is welcome.

This should be printed on its side as pictured. This is the best orientation for the little notch that retains the USB cable.

I have quickly created a double holder with an enlarged cable slot and small cable holder incorporated into the retaining hooks.

I have not tested this version yet but if anyone is willing to give it a try I would really appreciate it.

Print Settings

Printer Brand:

Creality

Printer:

Ender 3

Rafts:

Yes

Supports:

Yes

Resolution:

200

Infill:

5 - 10

Filament: Generic PLA

Notes:

0.4mm nozzle

210 nozzle temp

60 bed temp

5-10% line infill

Tree support with 40 deg branch angle
