After looking around on the internet, I couldn't really find a model for this type of truck, so I created one myself....

After looking around on the internet, I couldn't really find a model for this type of truck, so I created one myself.

If you want the truck to be as in the photo, print both fences, if you want it to be a van print the van_back.

I've posted it as a WIP, because I'm planning to make a canvas back and a spare tire option for this model
